## PVCPRO-70

### Jersey winter gloves with PVC coating

#### Features:

- A rugged winter glove that outwears leather, sheds water, resists salts and chemicals and keeps hands warm
- Foam insulation version for extra warm and comfort is also available

#### Recommended Applications:

Outdoor & highway maintenance, Chemical refining, Cold storage

| Code      | Style                                 | Size | Packing                           |
|-----------|---------------------------------------|------|-----------------------------------|
| PVCPRO-70 | Jersey winter gloves with PVC coating | 9-11 | 12pairs per bag, 72pairs per case |

## PVCPRO-44

### Foam-Insulated gloves with PVC coating

#### Features:

- The soft jersey lining makes them very comfortable and easy to wear
- PVC coating stays soft in cold conditions
- Safety cuff design provides extra protection

#### Recommended Applications:

Outdoor construction work, winter transportation, yard and field work

| Code      | Style                                  | Size | Packing                           |
|-----------|--|------|-----------------------------------|
| PVCPRO-44 | Foam-Insulated gloves with PVC coating | 9-11 | 12pairs per bag, 72pairs per case |

## PVCPRO-66

**EVA foam padded back, fully PVC coating**

### Features:

- EVA foam padded at hand back provides extra protection from impact and vibration
- PVC coating stays soft in cold conditions

### Recommended Applications:

Outdoor construction work, Oil & Gas, yard and field work

| Code      | Style                                   | Size | Packing                           |
|-----------|---|------|-----------------------------------|
| PVCPRO-66 | EVA foam padded back, fully PVC coating | 9-11 | 12pairs per bag, 72pairs per case |

## PVCPRO-42

**Winter gloves with PVC coating, textured surface**

### Features:

- The textured surface provides an excellent grip for easier, safer handling of both wet and dry materials
- Foam insulation version for extra warm and comfort is also available

### Recommended Applications:

Oil & Gas, Outdoor construction work, Cold storage

| Code      | Style  | Size | Packing                           |
|-----------|--|------|-----------------------------------|
| PVCPRO-42 | Winter gloves with PVC coating, textured surface | 9-11 | 12pairs per bag, 72pairs per case |

## PVCPRO-67

### Jersey winter gloves with PVC coating

#### Features:

- The soft jersey lining makes them very comfortable and easy to wear
- The textured surface provides an excellent grip for easier, safer handling of both wet and dry materials

#### Recommended Applications:

Outdoor construction work, Oil & Gas, yard and field work

| Code      | Style                                 | Size | Packing                           |
|-----------|---------------------------------------|------|-----------------------------------|
| PVCPRO-67 | Jersey winter gloves with PVC coating | 9-11 | 12pairs per bag, 72pairs per case |

## PVCPRO-67+

### 3M Thinsulate C40 lining with PVC coating

#### Features:

- 3M Thinsulate C40 lining provides extra warm and comfortable
- PVC coating stays soft in cold conditions
- Black color hides dirt, extending the life of the glove

#### Recommended Applications:

Outdoor construction work, Oil & Gas, yard and field work

| Code       | Style                                     | Size | Packing                           |
|------------|---|------|-----------------------------------|
| PVCPRO-67+ | 3M Thinsulate C40 lining with PVC coating | 9-11 | 12pairs per bag, 72pairs per case |

## PVCPRO-82

**Interlock liner with fine sandy finish PVC coating**

### Features:

- The premium PVC coating is well-suited for use with oils, acids, caustics, grease and most solvents and chemicals
- Sandy finish provides solid grip

### Recommended Applications:

Chemical refining, Oil & Gas

| Code      | Style  | Size | Packing                           |
|-----------|--|------|-----------------------------------|
| PVCPRO-82 | Interlock liner with fine sandy finish PVC coating | 9-11 | 12pairs per bag, 72pairs per case |

## PVCPRO-30

**15Gauge Nylon liner with PVC/Nitrile coating**

### Features:

- PVC coating stays soft in cold conditions
- Nitrile coating increases abrasion resistant and provides super flexibility and comfort

### Recommended Applications:

Chemical refining, Oil & Gas

| Code      | Style  | Size | Packing                           |
|-----------|--|------|-----------------------------------|
| PVCPRO-30 | 15Gauge Nylon liner with PVC/Nitrile coating | 9-11 | 12pairs per bag, 72pairs per case |

## CUTPRO-140

### Applications:

Automotive Manufacturing  
Assembly, Machining  
Metal Handling  
Maintenance

## PRODUCT DESCRIPTION

- 13Gauge para-aramid blended knit liner provides Cut Level 5 protection.
- Sandy Nitrile coating ensures a solid secure grip in wet or dry conditions.
- High-visibility liner color enhances worker protection

## CUTPRO-240

**10Gauge Cut resistant liner with premium cow split leather palm**

### Features:

- Engineered yarns provide high cut protection-to-weight ratio
- Durable leather pad double-stitched with DuPont Kevlar fiber to ensure superior grip and protection against punctures

### Recommended Applications:

Automotive, Glass, Metalworking

| Code       | Style   | Size | Packing                            |
|------------|---|------|------------------------------------|
| CUTPRO-240 | 10Gauge Cut resistant liner with premium cow split leather palm | 7-11 | 12pairs per bag, 144pairs per case |

## CUTPRO-340

**10Gauge DuPont Kevlar liner with Latex crinkle palm coating**

### Features:

- 100% DuPont Kevlar liner provides exceptional cut, abrasion and puncture resistance
- Crinkle finish Latex coating for superior wet and dry grip

### Recommended Applications:

Glass, Metal Fabrication, Window Glazers

| Code       | Style   | Size | Packing                            |
|------------|---|------|------------------------------------|
| CUTPRO-340 | 10Gauge DuPont Kevlar liner with Latex crinkle palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## CUTPRO-350

### 13Gauge HPPE blended knit liner with PU palm coating

#### Features:

- High performance HPPE blended knit liner provides high cut resistant protection
- PU palm coating provides great grip in dry or oily conditions

#### Recommended Applications:

Shipping and receiving, Automotive, Metal stamping

| Code       | Style  | Size | Packing                            |
|------------|--|------|------------------------------------|
| CUTPRO-350 | 13Gauge HPPE blended knit liner with PU palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## CUTPRO-351

### 13Gauge HPPE blended knit liner with Sandy Nitrile palm coating

#### Features:

- HPPE shell feels cool on the skin and delivers dependable cut resistance
- Sandy Nitrile coating ensures a solid, secure grip in wet applications

#### Recommended Applications:

Assembly, Machining, Metal handling and maintenance

| Code       | Style   | Size | Packing                            |
|------------|---|------|------------------------------------|
| CUTPRO-351 | 13Gauge HPPE blended knit liner with Sandy Nitrile palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## NBRPRO-100

### Applications:

Building  
Heavy-duty handling  
Oil and gas

## PRODUCT DESCRIPTION

- Soft Jersey lining provides great comfort.
- Heavy-duty Nitrile coating gives excellent dry grip.

## HM-100

### Arc Flash impact glove

#### Features:

- Provides Arc Rating, ATPV=63Cal/cm<sup>2</sup>(ASTM F2675 / F2675M-13)
- Leather padding palm provides flame resistant performance
- Silicon TPR sewed on back for impact absorption

#### Recommended Applications:

Excellent for any industries susceptible to electrics

| Code   | Style                  | Size | Packing                            |
|--------|------------------------|------|------------------------------------|
| HM-100 | Arc Flash impact glove | 7-11 | 12pairs per bag, 144pairs per case |

## HM BL100

### 10Gauge Polycotton liner with Latex crinkle palm coating

#### Features:

- Advanced ergonomic design features a soft, seamless polycotton knit liner for unbelievable comfort
- Superior wet and dry grip

#### Recommended Applications:

Automotive, General industry, Warehousing

| Code     | Style  | Size | Packing                            |
|----------|--|------|------------------------------------|
| HM BL100 | 10Gauge Polycotton liner with Latex crinkle palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM ECO GREEN

### 13Gauge Polyester+Spandex liner with ECO GREEN palm coating

#### Features:

- ECO GREEN palm coating is environmental friendly and provides excellent abrasion resistant
- Palm pattern can be customized

#### Recommended Applications:

Assembly, Shipping and receiving, General maintenance

| Code         | Style   | Size | Packing                            |
|--------------|---|------|------------------------------------|
| HM ECO GREEN | 13Gauge Polyester+Spandex liner with ECO GREEN palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM FN450

### 15Gauge Nylon+Lycra liner with Foam Nitrile palm coating

#### Features:

- Nylon and Lycra liner adds stretch and breathability
- Soft, flexible foam Nitrile coating ensures great grip of small parts even in wet or oily conditions

#### Recommended Applications:

Assembly, Shipping and receiving, General maintenance

| Code     | Style  | Size | Packing                            |
|----------|--|------|------------------------------------|
| HM FN450 | 15Gauge Nylon+Lycra liner with Foam Nitrile palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM SN450

### 15Gauge Nylon+Lycra liner with Sandy Nitrile palm coating

#### Features:

- Nylon and Lycra liner adds stretch and breathability
- Sandy Nitrile palm coating ensures a solid, secure grip in wet, dry or oily applications

#### Recommended Applications:

Assembly, Shipping and receiving, General maintenance

| Code     | Style   | Size | Packing                            |
|----------|---|------|------------------------------------|
| HM SN450 | 15Gauge Nylon+Lycra liner with Sandy Nitrile palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM SL250

### 15Gauge Nylon+Lycra liner with Sandy Latex palm coating

#### Features:

- Nylon and Lycra liner offers superior comfort
- Sandy Latex palm delivers excellent grip, dexterity and abrasion resistance while hiding dirt and grime

#### Recommended Applications:

Assembly, Shipping and receiving, General maintenance

| Code     | Style   | Size | Packing                            |
|----------|---|------|------------------------------------|
| HM SL250 | 15Gauge Nylon+Lycra liner with Sandy Latex palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM SL250T

### 7Gauge Acrylic terry fleeced liner with Sandy Latex palm coating

#### Features:

- Acrylic fleece liner provides insulation and warmth in cold temperatures
- Sandy Latex palm delivers excellent grip and dexterity

#### Recommended Applications:

Warehousing, Forestry, Public Utilities

| Code      | Style  | Size | Packing                            |
|-----------|--|------|------------------------------------|
| HM SL250T | 7Gauge Acrylic terry fleeced liner with Sandy Latex palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM TL043

### 13Gauge 100% Thermolite knit glove

#### Features:

- The Invista certified Thermolite fibers act as a hand warmer for use in cold and damp working environments
- Used as a liner under gloves

#### Recommended Applications:

Ideal for cold and damp conditions

| Code     | Style                              | Size | Packing                            |
|----------|------------------------------------|------|------------------------------------|
| HM TL043 | 13Gauge 100% Thermolite knit glove | 7-11 | 12pairs per bag, 144pairs per case |

## HM WT117

### 13Gauge Wool touch screen glove

#### Features:

- A knit wool glove that functions well as a liner, insulating the hand from cold temperatures
- Compatible with all touch screen devices

#### Recommended Applications:

Warehousing, General industry, Public Utilities

| Code     | Style                           | Size | Packing                            |
|----------|---------------------------------|------|------------------------------------|
| HM WT117 | 13Gauge Wool touch screen glove | 7-11 | 12pairs per bag, 144pairs per case |

## HM BP160

### 13Gauge Polyester liner with PU palm coating

#### Features:

- Polyurethane coating for great grip, abrasion resistant and durability
- Flexible and comfortable close fit
- Black on black color hides dirt, extending the life of the glove

#### Recommended Applications:

Electronics, Automotive, Engineering

| Code     | Style  | Size | Packing                            |
|----------|--|------|------------------------------------|
| HM BP160 | 13Gauge Polyester liner with PU palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM CP180

### 18Gauge CoolMax liner with PU palm coating

#### Features:

- CoolMax technology yarn moves away moisture quickly
- Keep skin cool and dry
- Polyurethane coating for great grip, abrasion resistant and durability

#### Recommended Applications:

Garden, Electronics, Engineering

| Code     | Style                                      | Size | Packing                            |
|----------|--|------|------------------------------------|
| HM CP180 | 18Gauge CoolMax liner with PU palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM GP150

### 13Gauge Polyester printing liner with PU palm coating

#### Features:

- Polyurethane palm coating delivers excellent fit and performance
- Glove surface provides solid grip in both wet and dry environments
- Breathable and form fitted design

#### Recommended Applications:

Garden, Gathering, Weeding

| Code     | Style   | Size | Packing                            |
|----------|---|------|------------------------------------|
| HM GP150 | 13Gauge Polyester printing liner with PU palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM GN150

### 13Gauge Polyester printing liner with Nitrile palm coating

#### Features:

- Nitrile palm coating provides a high tactile grip
- Nitrile dipping prevents liquid penetration through the glove
- Flexible, dexterous & comfortable fit

#### Recommended Applications:

Garden, Gathering, Weeding

| Code     | Style  | Size | Packing                            |
|----------|--|------|------------------------------------|
| HM GN150 | 13Gauge Polyester printing liner with Nitrile palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM GP420

### 13Gauge Nylon liner with reinforced fingertips, PU palm coating

#### Features:

- Ultra-cool stretch nylon liner is breathable and comfortable
- Double layer tips protect fingernails
- Polyurethane palm coating delivers excellent fit and performance

#### Recommended Applications:

Garden, Gathering, Weeding

| Code     | Style   | Size | Packing                            |
|----------|---|------|------------------------------------|
| HM GP420 | 13Gauge Nylon liner with reinforced fingertips, PU palm coating | 7-11 | 12pairs per bag, 144pairs per case |

## HM GJ150

### Cotton jersey gardening gloves

#### Features:

- Cotton jersey breathable material allows your hands to stay cool
- Extended cuff helps keep dirt out
- Great for gathering, planting and weeding

#### Recommended Applications:

Garden, Gathering, Weeding

| Code     | Style                          | Size | Packing                            |
|----------|--------------------------------|------|------------------------------------|
| HM GJ150 | Cotton jersey gardening gloves | 7-11 | 12pairs per bag, 144pairs per case |
